FSC helps take care of forests and the people and wildlife who call them home. Our forests give us many things like books, tissues, furniture and so much more. FSC helps you keep your life full of forest products while keeping our forests full of life. FSC certified wood and paper make sense economically, socially and environmentally. As recognized by WWF, FSC is the most rigorous forestry standard.

*To succeed in an increasingly resource-constrained and competitive wood products market, companies need to manage operational and reputational risk. That requires a transition from a short-term buying approach into a long-term system of building and managing the integrity of the value chain of wood products. - Angel Llaveró Cruz, WWF Forest Product Markets and Supply Chain Coordinator.*
